MANITOBA POPULATION ESTIMATES - April 1, 2003

	April 03	January 03	April 02
POPULATION	1,152,700	up 2,100	up 3,600

NET MIGRATION (January to April)	2003	2002
Interprovincial	522	-659
Total	1,466	264

Manitoba's total population was estimated at 1,152,700 persons as of April 1, 2003, up 2,100 persons from the January 1, 2003 estimate. Population growth continues on an annual basis, with Manitoba's increase since April 1, 2002 estimated at 3,600 persons, or 0.3%. A large portion of Manitoba's estimated population gain during the first quarter of 2003 was the result of positive net interprovincial migration.

We recorded a net gain of 522 persons to other provinces through interprovincial migration in the first quarter of 2003, a sharp improvement from the net loss of 659 persons in the first quarter of 2002. Manitoba normally records a net loss due to net interprovincial migration. The current gain is the first since the first quarter of 1999. In the first quarter of 2003, Manitoba gained population on a net basis chiefly from Saskatchewan (482), while most of the losses (as in past quarters) were to Ontario (-87).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 1,466 persons in the first quarter of 2003, the largest in twenty years.
